

Road Construction Updates

Aug. 20-Sep. 5, 2011: Sequoia & Kings Canyon National Parks

Plan carefully to maximize your fun and minimize your delays during your visit to Sequoia and Kings Canyon National Parks. We appreciate your patience during ongoing road construction projects. Our construction season is short, and the work is necessary for everyone's safety.

How Can You Minimize Delays?

- Give yourself plenty of time to visit.
- Stop by one of our visitor centers, and ask a ranger to help you plan your visit.
- Visit our park website for major road construction updates: <http://www.nps.gov/seki>.
- Call the National Park Service at 559-565-3341 during business hours.

Where are the Biggest Delays or Inconveniences?

If you plan to enter or exit Sequoia National Park, you will find 20-minute to 1-hour delays between the Hwy. 198 entrance to Sequoia National Park and the Giant Forest (11 miles in the park) or on your way to the General Sherman Tree, the largest giant sequoia tree in the world. You may encounter additional 5-15 minute delays for other road projects in both parks with occasional temporary road, parking, and campground closures. *Schedules may change with little notice.*
